(email:)

Summary
Number of public health hazards found: 0
Number of public health hazards NOT corrected: 0
Number of other violations found: 0

Each item found in violation is reported below along with the code requirement.

NO VIOLATIONS WERE OBSERVED.

Code Requirements

Inspector Findings

Additional Information Collected During Inspection

Comments

Reinspection conducted to follow up on reoccurring issue of cold held sliced cheese and containers of shredded cheese with temperatures above the required cold holding temperature of 45F. Staff has relocated sliced cheese to bottom section of refrigerated make unit between flat top grill and loading oven. Temperature of sliced cheese in the bottom of the make unit was 43F. Staff has relocated shredded cheese and other potentially hazardous food (PHF/TCS) items, such as chicken, to the rear of the top section of the make unit to keep items further away from the heat produced by the surrounding equipment. Staff has also removed inserts from the front of the top section of the make unit and has been trained to keep the lid of the top section down to allow cold air to circulate in the top section. Discussed facility's hot hold waiver. No other items evaluated during time of inspection.
