Number of other violations found: 0

Each item found in violation is reported below along with the code requirement.

NO VIOLATIONS WERE OBSERVED.

### Code Requirements

### Inspector Findings

### Additional Information Collected During Inspection

### Comments

Conducted pre-operational telephone conference with operator. Discussed barehand contact prevention methods, which include use of scoops, spoons, napkins (for cones), and food service gloves. Operator stated hot and cold water, soap, paper towels, sanitizer (powdered bleach), sanitizer test strips were present. Facility also has high-temperature sanitizing dish machine. Advised operator to ensure final rinse temperature is 170F or greater. Recommended obtaining digital probe thermometer due to accuracy and ease of use. Discussed storage of utensils for dispensing ice cream and toppings. Operator stated scoops for ice cream are used once and are washed, rinsed, and sanitized prior to reuse. Utensils for toppings are stored such that the hand contact ends are not stored such that they are in contact with the toppings. Reminded operator to notify CCHD in event of flood, fire, lack of water, sewer backup, allegation of foodborne illness. Unannounced inspection to be completed at a later date.
