Inspector Findings

Handle of handwash sink in men's toilet room does not completely turn off flow of water. Per manager, a work order for repair has been submitted, and in the meantime, the water supply is turned off nightly after facility closes to stop the flow of water, and is supposed to be turned on prior to opening. Sanitarian recommended that manager ensure that workers wash their hands upon returning to kitchen, such as after using toilet room, smoking, cleaning, etc. A timetable for correction of 11/13/2017 established at time of visit.
