Inspector Findings

At 12:05pm, observed ~30 individual sized containers of sour cream sitting in larger plastic container on table (no ice in container) at temperature of 56dF. Interview indicated that sour cream had been pulled from cold holding (ice chest) and set out at 11:30am. Discussed with staff that sour cream is time and temperature control for safety (TCS/PHF) food and is required to be cold held at 45dF or less. Staff relocated all of the sour cream containers back into ice chest, making sure all side sour cream was down into ice to rapid chill. Staff pulled new individual sized containers of sour cream from ice chest and placed down into ice for service. CORRECTED

Additional Information Collected During Inspection
