Additional Information Collected During Inspection

Comments

Field visit to facility to check on status of walk-in cooler. Temperature of tomatoes in walk-in cooler was 38dF. Interview with operator indicated that condenser was iced over and compressor was full of dirt outside on roof. Once unit was cleaned and defrosted, the temperature started coming back down in unit. Operator indicated she wanted to start keeping temperature logs for walk-in cooler- CCHD will provide. Operator stated roof would be fixed to stop leak along seam and fan covers and ceiling would be cleaned as well this week. No other items were evaluated during visit. All items listed above are still under a time table of correction of 7/24/17.
