Inspector Findings

Additional Information Collected During Inspection

Comments

Provided food safety summary sheet at time of inspection. Discussed opportunity for food worker training, which CCHD staff are able to conduct as early as the last week of December. Temperature inside refrigerator containing potentially hazardous foods was 37F, foods were 37-39F. Violation 11A was corrected from last visit as operator was able to locate chlorine sanitizer test strips. Verified that staff are following requirements for washing dishes, utilizing all 3 bays of sink for washing, rinsing, then sanitizing. Recommended storing of raw meats, such as packages of chicken breast below ready to eat items, including hamburger buns, in stand up freezer. Deb to contact CCHD to set up annual HACCP exercise within next two weeks.
