Inspector Findings

Additional Information Collected During Inspection

Comments

No violations observed during inspection. Observed chicken tenders in hot holding next to fryer at temperature of 170-174dF. Observed fish coming out of fryer at temperature of 193dF. Observed chicken in hot holding unit above cold holding make unit at temperature of 164dF and 169dF. Observed sliced tomatoes and ham in cold holding make unit at temperature of 42dF. Observed staff using thermometers to obtain temperature of chicken in hot holding. Observed staff wearing gloves while preparing ready to eat food items. Discussed requirement with manager to report any complaints of food-borne illness with CCHD. Advised manager to take temperatures of items coming up from fryer and cooking temperature of chicken is 165dF. Manager has obtained door gasket and it is on unit but needs to be sealed into place. Plastic sheeting has been used to seal hole in wall next to back hand wash sink. Manager stated roof repair has been completed.
