---

### Additional Information Collected During Inspection

**Comments:** Pre-operational inspection conducted to evaluate newly renovated kitchen. No violations observed during pre-operational inspection. Observed functioning digital thermometer. Both walk-in cooler and freezer were operational at time of inspection. Observed thermometers in all cold holding units in kitchen. All food prep sinks observed draining into indirect drains. Observed mop sink with back flow prevention device. Automated sanitizer and dish soap dispenser operational during inspection. Observed test strips for both quaternary ammonia and chlorine. Setting for sanitizing solution dispenser set with a quaternary ammonia concentration of 400ppm. Discussed cleaning of all food contact surfaces and equipment before placing into service. Discussed stocking all hand washing sinks with adequate supplies such as soap, hot water, and paper towels. Discussed increasing length of time water flows from hand wash sink in employee toilet room to allow for adequate hand washing.
