---

### Additional Information Collected During Inspection

**Comments:** Conducted an operational inspection of Corning Catering @ Vulcraft 621 Main Street in Chemung, NY. No violations were noted during inspection. Food staff was observed properly using utensils during inspection, plastic gloves were also available along with access to hand wash sink. A numerical thermometer is available to evaluate cooked potentially hazardous (TCS) foods. Staff stated that they also do breakfast sandwiches made per order and also do pizzas. Checked hot foods during inspection- Pizza with ham and ground beef topping- +165dF, Hot dogs- +195dF. Commercial refrigerated storage coolers are available for cold-holding of potentially hazardous (TCS) foods (monitoring thermometers available- were maintained at less than 45 dF). Also discussed proper cooling, re-heating & hot-holding of potentially hazardous (TCS) foods with staff during inspection including use of 4" in rectangular flat pans with foods uncovered during cooling process with storage inside of commercial refrigerated storage units at less than 45 dF.
