Inspector Findings

Additional Information Collected During Inspection

Comments

No violations observed during inspection. Observed operational digital thermometer. Meatloaf in hot holding unit had a temperature of 180F. Twice baked potatoes had a temperature of 141F. Discussed procedure for preparing meatloaf. Per worker, meatloaf is baked for 1 and a half hours, and then evaluated for temperature. Per worker, meatloaf was not at adequate temperature after initial cook time, so it was placed back in oven for approximately 15 minutes, after which it reached an internal temperature of 165F. Observed workers serving food wearing gloves.
