### Additional Information Collected During Inspection

**Comments:** No violations observed. Observed accurate probe thermometer. Shredded cheese stored in commercial two door refrigerator had a temperature of 44F. Discussed working in small, manageable quantities and wearing gloves when preparing ready to eat foods. Discussed with General Manager of placing shredded cheese on cold holding waiver. Facility on occasion serves shredded cheese as topping for egg dishes. Shredded cheese is placed in pre-chilled plastic container and held next to hot held egg dishes. Observed facility correctly following both cold and hot holding waivers at time of inspection. Observed patrons using tongs when self-serving baked goods, to prevent barehand contact.
