PO BOX 387
BIG FLATS , NY 14814- Owner/Operator Email: rkeenan1414@aol.com

Inspection
Date: JAN 22, 2018 02:54 PM
Inspector: Zachary Cavaluzzi (zcavaluzzi@co.chemung.ny.us)
Responsible Person: Casey Keenan
(email:)

Summary
Number of public health hazards found: 1
Number of public health hazards NOT corrected: 0
Number of other violations found: 2

Each item found in violation is reported below along with the code requirement.

IMPROPER COOLING AND REFRIGERATED STORAGE OF POTENTIALLY HAZARDOUS FOODS.

ITEM # 5A WAS FOUND IN VIOLATION 1 TIME(S). CRITICAL VIOLATION

All or parts of the violation item are IN violation.

Code Requirements

Potentially hazardous foods are not kept at or below 45oF during cold holding, except smoked fish not kept at or below 38oF during cold holding.

Inspector Findings

At ~2:35pm, observed 1 cup of shredded cheddar cheese in plastic ninth pan with a temperature of 53F located in top left section of pizza make unit, across from flat top grill. Employee was in process of making several pizzas at time of inspection and lids to pizza make units were up during process. Per staff, process for making a pizza takes ~5 minutes, but number of pizzas made vary during different times of the day such as lunch and dinner rushes. Time and temperature control for safety (TCS/PHF) items in top right section and bottom section of pizza make unit found at 45F and a thermometer in bottom section of make unit read a temperature of 45F. TCS/PHF foods are to remain at a temperature of 45F or below as required by code and any cold held TCS/PHF items found above 45F for more than 2 hours or an indeterminable amount of time must be discarded. Staff stated cheese was placed in unit the night before. Cheese was voluntarily discarded at time of inspection as staff was unable to determine if cheese was above 45F for less than 2 hours. Discussed keeping lids to pizza make units down during slow times and when not making pizzas to help keep toppings at 45F or below. Employee lowered temperature setting of pizza make unit during time of inspection. CORRECTED.

IMPROPER SANITARY FACILITIES AND CONTROLS.

ITEM # 12D WAS FOUND IN VIOLATION 1 TIME(S).

All or parts of the violation item are IN violation.

Code Requirements

Toilet facilities inadequate, inconvenient, dirty, in disrepair, toilet paper missing, not self-closing doors, missing hand wash signs

Inspector Findings

Door knob to inside of toilet room is covered in duct tape, not smooth and easily cleanable. Facility to remove tape from door knob.

IMPROPER CONSTRUCTION AND MAINTENANCE OF PHYSICAL FACILITIES.

ITEM # 15A WAS FOUND IN VIOLATION 1 TIME(S).

All or parts of the violation item are IN violation.

Code Requirements

Floors, walls, ceilings, not smooth, properly constructed, in disrepair, dirty surfaces

Inspector Findings

Door knob to inside of toilet room is covered in duct tape, not smooth and easily cleanable. Per employee, door knob lock does not function properly. Facility to remove tape from door knob.

Additional Information Collected During Inspection

Comments

Observed accurate probe thermometer. Facility in process of making new pizzas that were to be placed on the hot holding waiver and discarding pizza slices that had reached their 4 hour waiver limit. Observed discard times of TCS/PHF pizzas written on paper located next to pizza display area as agreed upon in facility's hot holding waiver. Discussed keeping TCS/PHF toppings for pizza and sandwiches below the fill line of the make unit inserts to help keep items at 45F or less.

END of REPORT
