Number of other violations found: 0

Each item found in violation is reported below along with the code requirement.

NO VIOLATIONS WERE OBSERVED.

Code Requirements

Inspector Findings

Additional Information Collected During Inspection

Comments

No violations observed during time of inspection. Discussed keeping lids on cold holding sandwich make unit inserts to help keep potentially hazardous food (PHF/TCS) items 45F or below. Meatballs and soups are commercially prepared and must be reheated to 140F within 2 hours. Employee voluntarily reheated meatballs in sauce in microwave to heat to 140F throughout within the two hour reheat requirement. Discussed stirring soups and meatballs while monitoring temperatures every 30 minutes while in hot holding. Staff received shipment prior to inspection. While conducting inspection, staff was observed putting shipment away in between interacting with customers. Discussed putting items and supplies away in a timely matter, on shelves at least 6 inches off ground. Time/temperature control for safety foods (PHF/TCS) must be immediately put away so food does not reach temperatures above 45F. Observed quaternary ammonia test strips and sanitizer, with adequate levels at 200ppm, in 3-bay sink.
